## Cavity Sliders

### CaviLock - CL200 Range

#### Configurations

##### CL205 A - Passage (non-latching)

**Non-magnetic**

Passage handles are suitable for situations where locking or latching is not required. These handles do not have a striker or magnet.

SATIN CHROME

BRIGHT CHROME

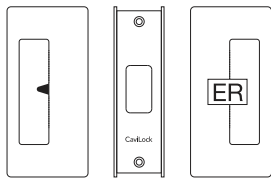

SATIN NICKEL

OIL RUBBED BRONZE

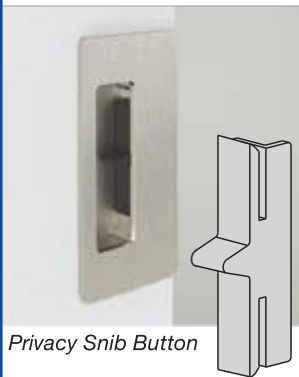

MATTE BLACK

##### CL205 D - Privacy Snib/Emergency

**Magnetic Latch**

Privacy handles have a discreet triangular shaped snib button on one side and Emergency Release on the other side. They are suitable for sliding doors where latching is required.

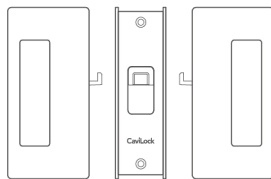

Privacy Snib Button

Emergency Release

##### CL205 C - Bi-Parting Mate (to latch with Privacy)

**Magnetic Latch**

The Bi-Parting mate includes a striker on the face plate to enable it to magnetically latch with a privacy handle.

For Bi-Parting passage doors, order two single passage handles.

## Cavity Sliders

### CaviLock - CL400 Passage, Magnetic Latching

The CL400 is a stylish architectural option for passage handles. Designed to complement the privacy and locking range, this handle features a positive hold close action to ensure the door doesn't bounce off the closing jamb.

#### Features:

- Magnetic latch ensures door doesn't roll away from the closing jamb.
- Passage hardware matches Privacy and Key Locking hardware.
- Door slides flush back into the pocket.

## Cavity Sliders

### CaviLock - CL400 Privacy, Magnetic Latching

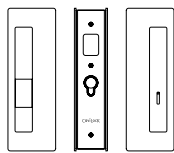

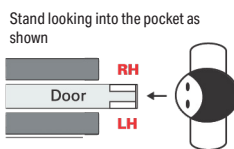

The CL400 Privacy option matches the other configurations in the range. The magnetic latching feature ensures the door doesn't roll open - even if the snib is not engaged.

#### Features:

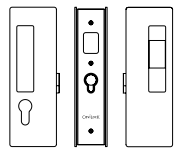

- Privacy hardware matches Passage and Key Locking hardware.
- Door slides flush back into the pocket.
- Magnetic latch ensures door doesn't roll away from the closing jamb.
- Moving parts sit flush until the door closes to minimize wear.

#### HANDING CONFIGURATION

Handing is determined at time of manufacture and cannot be altered on site. Careful selection of handing options is required at time of order. See diagram for determining handing of functions.

### CaviLock - CL400 Locking & Magnetic Latching

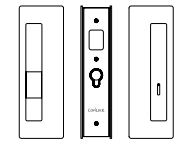

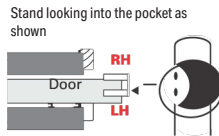

The CL400 Key Locking option is suitable for residential or light commercial use in internal situations where medium security is required. It incorporates a single or double Euro Profile cylinder with Schlage C Keyway. All Key Locking handles come with a raised shroud as standard or increased security.\*

#### Features:

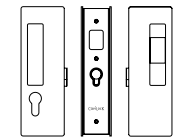

- Raised shroud included as standard for increased security.
- Key Locking hardware matches Passage and Privacy hardware.
- Door slides flush back into the pocket.
- Magnetic latch ensures door doesn't roll away from the closing jamb.
- Moving parts sit flush until the door closes to minimize wear.

### CaviLock - CL400 Bi-Parting (Double Door) Set

The CL400 Bi-Parting set is suitable for use where two doors meet in the middle. The positive hold close action brings the doors together smoothly and holds them together until ready to open.

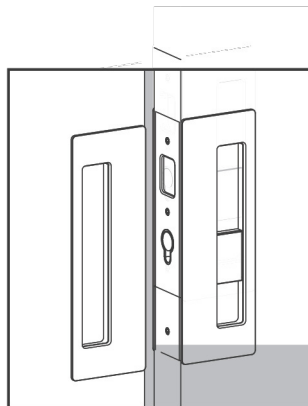

#### Features:

- Options include Passage and Privacy
- Bi-Parting hardware matches other hardware in the range.
- Doors slide flush back into the pocket.
- Moving parts sit flush until the door closes to minimize wear.
- Suits doors from 1-3/8" to 1-3/4" thick.

### CaviLock - Technical Detail

#### FACE PLATE

#### DOOR CUTOUT

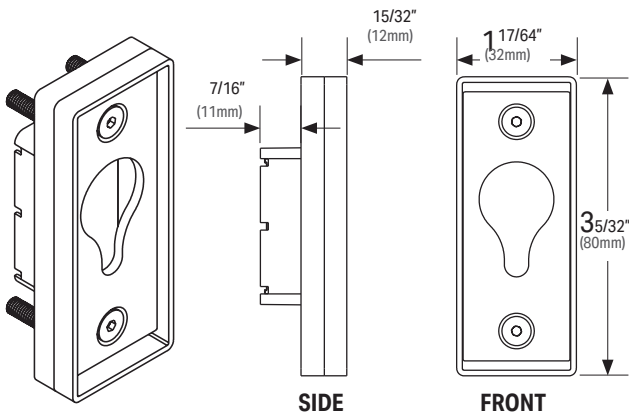

The CL400 requires a simple door cut out. Complete instructions and templates are supplied with every handle.

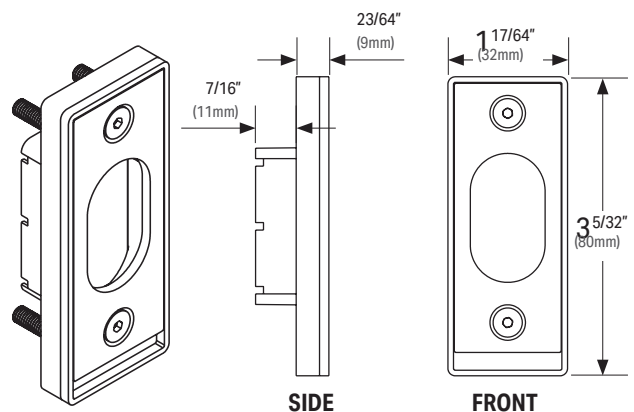

#### STRIKER

Depending on the configuration of the handle, the striker supplied is designed to either sit flush with the face of the closing jamb or recessed into the closing jamb. Striker cutout template and instructions are supplied with your handle and cover installation into a flush or recessed closing jamb.

#### Recessed striker - Privacy/Key Locking handles

#### Flush striker - Passage handles

Dimensions shown in inches (and millimeters).

## Cavity Sliders CaviLock - CL400 ADA Magnetic Offset

The new CL400® ADA Magnetic matches the look and functionality of the existing CL400 Magnetic range of pocket door hardware, with added ADA functionality.

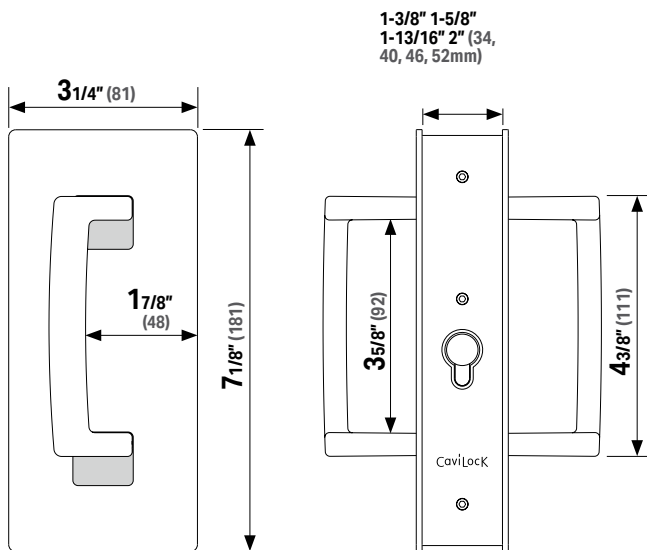

Utilizing the patented magnetic mechanism of the CL400 Magnetic, this new addition to the range provides flexibility for building owners. The CL400 ADA uses the same door cutout and striker and is able to be retrofitted over existing CL400 flush handles for the requirements of ADA tenants.

The CL400 ADA is compatible with egress applications.

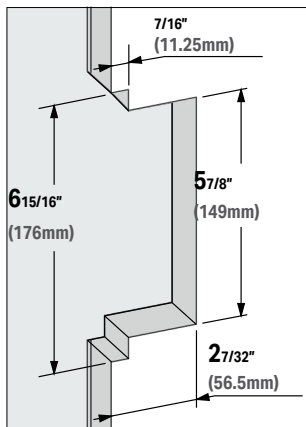

In line with ADA Standards for Accessible Design, the CL400 ADA Magnetic has a handle that is easy to grasp with one hand and does not require tight grasping, tight pinching or twisting of the wrist.

### Features:

- Easy to use - no tight pinching or twisting of the wrist.
- Patented magnetic functionality.
- Striker sits flush with closing jamb.
- See at a glance whether a room is occupied.
- Matches other hardware in the CL400 range.

1-3/8" 1-5/8"  
1-13/16" 2" (34, 40, 46, 52mm)

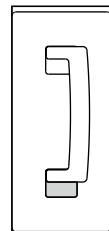

**IMPORTANT:** Operable parts of hardware must be mounted 34" (865mm) min. and 48" (1220 mm) max. above finished floor to meet ADA guidelines. The clear width of the door opening must be a minimum of 32". Always check State and Federal guidelines relating to the specific project.

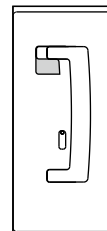

CaviLock CL400 ADA Privacy with Emergency Release

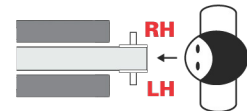

CL400 ADA Privacy Snib in satin nickel finish.
